

5.1 Verify Your Setup (Required)

Start Assignment

- Due No Due Date
- Points 100
- Submitting a text entry box, a website url, or a file upload

Verify Your Setup

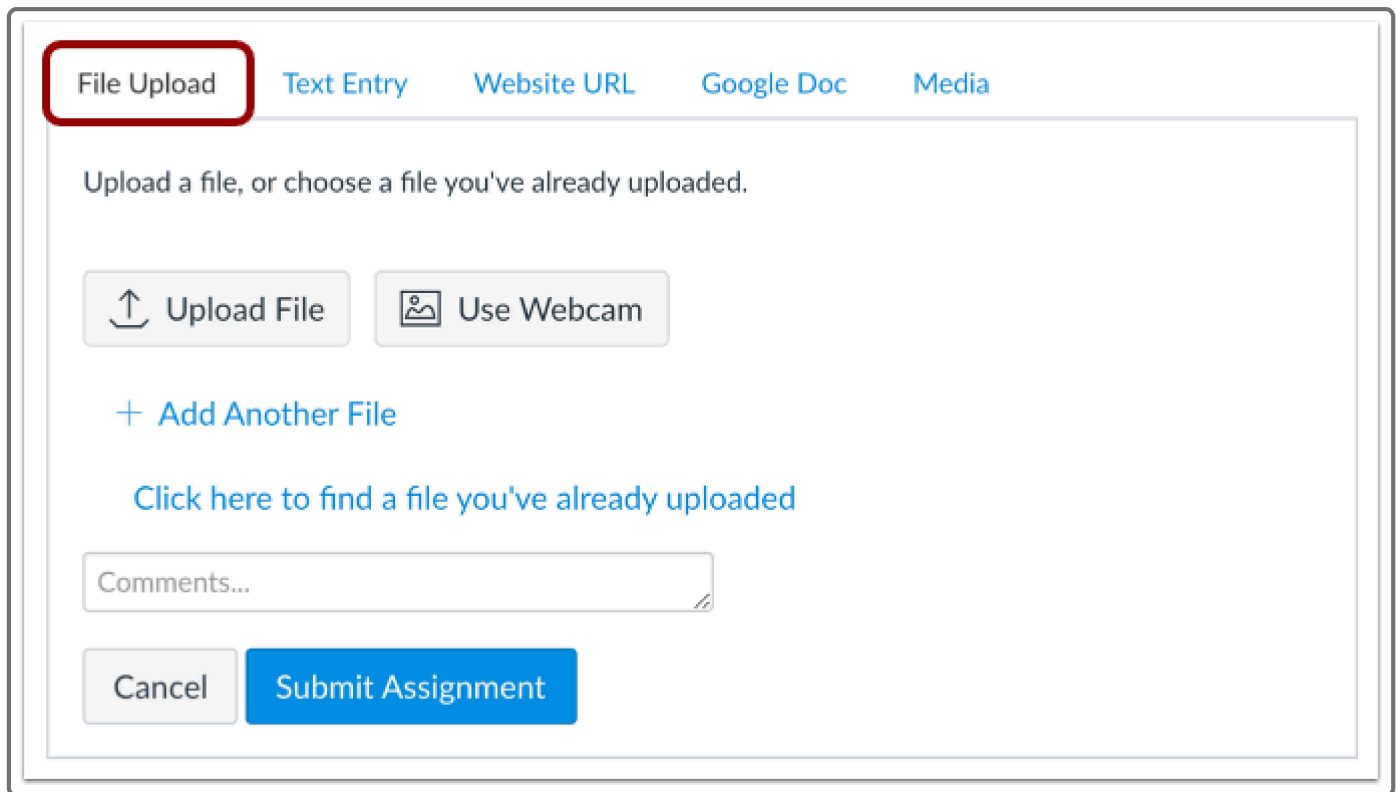

The work you've completed so far will ensure that you are ready to hit the ground running on day one.

There's one step left: verifying that you've got everything set up or installed properly. To do so, you will take screenshots of the tools you need for class and upload them in a zipped folder. If you encountered any errors while installing tools, please take a screenshot of the errors you encountered and include them in this folder. Instructional staff will be ready to help troubleshoot errors when the course starts. To take your screenshots and upload your folder, complete the following steps:

1. Create a folder on your desktop called `Class_Requirements`.
2. Then, take screenshots of the following tools, installations, etc., and save them in the `Class_Requirements` folder. You can always refer back to Modules 1 and 2 to verify where to find the information about either your machine or the installs.
 1. Screenshot of your machine's CPU, RAM, and available free space.
 2. Screenshot of Slack installed and open on your machine.
 3. Screenshot of Zoom installed and open on your machine.
 4. Screenshot of your GitHub profile.
3. After you have all of your screenshots saved in your `Class_Requirements` folder, zip the entire folder and upload it by following the instructions below.

How to Submit a File Upload

To upload a file from your computer and submit it as your assignment, select the **File Upload** tab.

The screenshot shows a submission interface with five tabs at the top: "File Upload", "Text Entry", "Website URL", "Google Doc", and "Media". The "File Upload" tab is highlighted with a red border. Below the tabs, the text "Upload a file, or choose a file you've already uploaded." is displayed. There are two buttons: "Upload File" (with an upward arrow icon) and "Use Webcam" (with a camera icon). Below these is a link "+ Add Another File". Further down is a blue link "Click here to find a file you've already uploaded". At the bottom, there is a "Comments..." text input field and two buttons: "Cancel" and "Submit Assignment".

Submitting Your Assignment

When you are ready to submit your assignment, click the **Submit Assignment** button.

Note: Large files submitted using the File Upload tab may display a submission status indicator.

Once the instructor has graded your submission, the Grades link in Course Navigation will display a grading indicator.

Details about your assignment and links to additional feedback will also appear in your Grades page.
